

Rhapsody Installation

Step 1

Welcome

The wizard's initial screen summarizes the engine's registration steps.

Step 2

Site Information

The screenshot shows the 'Rhapsody Site Registration' window at the 'Site Information' step. The left sidebar is the same as in Step 1, but 'Site Information' is now selected. The main area is titled 'Site Information' and contains the text: 'Please enter the information to begin the configuration. Fields marked with an asterisk (*) are required.' Below this are several input fields: 'Organization: *' (a single line), 'Address' (a section header), 'Line 1: *' (a single line), 'Line 2: *' (a single line), 'City: *' (a single line), 'Postcode: *' (a single line), 'State/Province/Region: *' (a dropdown menu), and 'Location: *' (a dropdown menu). At the bottom are 'Help', 'Back', 'Next', and 'Cancel' buttons.

The second screen prompts for your organization's Name and Address details.

Step 3

Engine Licensing

The screenshot shows the 'Engine Licensing' window of the Rhapsody Site Registration process. On the left is a blue sidebar with the 'RHAPSODY INTEGRATION ENGINE' logo and a progress list: Welcome, Site Information, Engine Licensing (highlighted), Product Usage, Registration, and Completion. The main content area is titled 'Engine Licensing' and contains three sections: 1. 'Engine' with a text input field and the instruction 'Enter a name that uniquely identifies this engine.' 2. 'Select the Rhapsody license' with a text input field and a 'Browse...' button, with the instruction 'Select the license file for this installation. Click the Browse (...) button to search for the file.' 3. 'Change Administrator password' with 'New password:' and 'Confirm password:' text input fields and the instruction 'Enter a new administrator password for this installation. Passwords should be easy to remember, but hard for others to guess.' At the bottom are 'Help', 'Back', 'Next', and 'Cancel' buttons.

The third screen prompts for a name that identifies this engine, the location of its license file and a new administrator password to access the IDE.

- A descriptive and unambiguous name will assist when distinguishing this engine from all others on your network.
- Select the Browse (...) button and locate the license file you downloaded from the Installation and Licensing course main page.
- Enter and confirm a new Administrator password. This is used to access both the IDE and Management Console.

Step 4

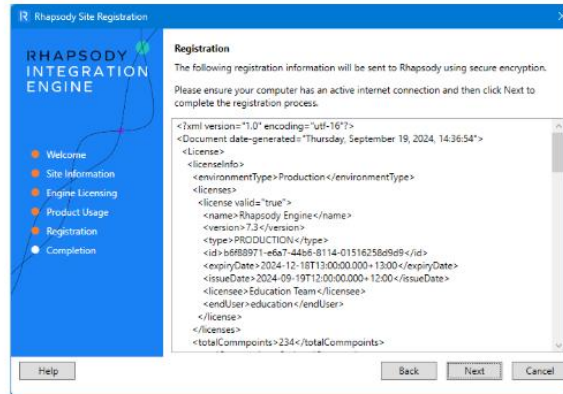

Product Usage

The screenshot shows the 'Product Usage' window of the Rhapsody Site Registration process. The left sidebar is identical to the previous screen, with 'Product Usage' highlighted in the progress list. The main content area is titled 'Product Usage' and contains the following text: 'Rhapsody collects anonymous product usage information to help us improve the product and support for our customers.'; 'Product usage information does not contain any of the data processed by the Rhapsody engine, and does not include any personally identifiable information (including health information) associated with an engine configuration.'; 'Product usage information will not be shared with or otherwise distributed to third parties outside the Rhapsody group of companies. A full copy of your product usage information can be provided upon request.'; 'If you wish to disable the collection of product usage information or preview the information collected, you may do so through Rhapsody's Management Console.'; and 'To learn more about Rhapsody's collection of product usage information, refer to Rhapsody's product documentation.' At the bottom are 'Help', 'Back', 'Next', and 'Cancel' buttons.

This screen details how and why Rhapsody collects product usage information. Once you've read and understood the information on this page, select **Next**.

Step 5

Registration

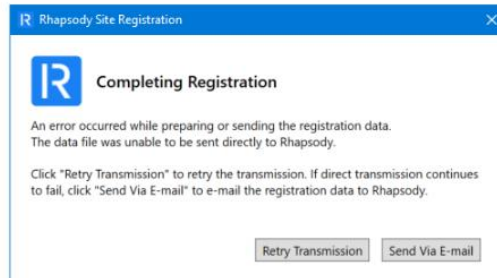

The final screen is a read-only summary of the information you have entered and will be sent in the background to Rhapsody.

1 2 3 4 5 6 7 ✓

Step 6

Registration Error

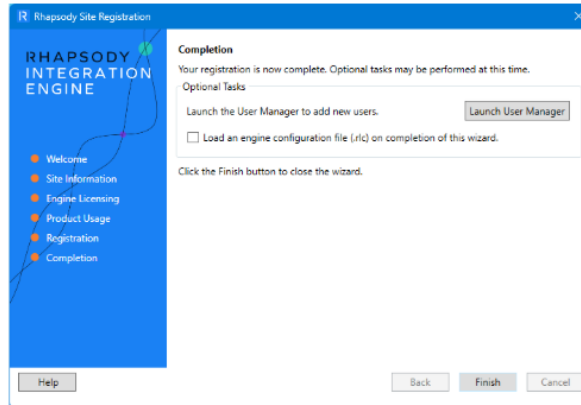

Following the **Registration** screen, a progress bar will be displayed as the details are sent.

If an Internet connection is not currently available, this will fail and the following dialog will be displayed. Select **Retry Transmission** to resend the registration details, or **Send Via E-mail** to save them as a file for later emailing to Rhapsody.

Step 7

Completion

The final screen of the **Registration Wizard** is an acknowledgement that the registration process has been completed successfully. Select **Finish** to begin working with the application.

To install or update a license, select **Install** on the **About Rhapsody** dialog.
